

Year 2 Spring Newsletter 2022

Happy New Year! Welcome back to our new term - I know I am looking forward to all of our fabulous learning that we will be doing. I was pleased with how the children focussed on their work last term and I cannot wait to see them back working hard in class again.

If you have any questions please email me on a.mee@crackleybank.staffs.sch.uk and I will get back to you as soon as possible.

Mrs Mee 😊

Coming up this term....

English and Maths: We will continue to ensure we cover the basic skills needed in English and Maths - recapping often.

We will continue to keep working on our reading skills, this time focussing more on how we use the text to find our answers, as well as developing our writing skills for stories and instructions.

In Maths we are going to be looking at multiplication and division as well as fractions and shapes.

NOTICES

PE will be on Wednesday still. Please ensure that children come to school in their PE kit on a Wednesday. We may be outdoors so the children will need appropriate clothing please. All jewellery must be removed before coming to school on Wednesday.

Homework will continue to be set on line each Thursday and is due by the next Wednesday.

Reading Books - need to be in school every day and will be changed as and when needed.

Water bottles - please make sure these are taken home each day, washed and re-filled ready for the next day.

Wider Curriculum

This term we embark on another learning adventure with our wider curriculum. In Science we will be investigating plants and food chains. Our Geography topic takes us on a journey to another continent learning about our similarities and differences, whilst our History helps us to compare Queen Elizabeth I and II. We will continue to develop our PSHE skills, talking about how we are feeling and thinking about our role in the world.

In Art we will be developing our painting skills and understanding of how to use colours and mix them, whilst in Design and Technology we will be learning all about food and nutrition - how to be healthy!

I am really looking forward to seeing how we get on.

Remember that all the crucial knowledge the children need is on our website too so keep checking there.
