

## Year 2 Summer Newsletter 2022

Hello Year 2 and welcome to our Summer Term - how very exciting! This is a great term in Year 2 as we continue to consolidate all our skills we have learnt so far as well as looking toward getting ourselves ready for our next year group. We have some important work to do but we will have lots of fun as well. Not to forget that this term we will see the Queen celebrate her Platinum Jubilee!

If you have any questions please email me on [a.mee@crackleybank.staffs.sch.uk](mailto:a.mee@crackleybank.staffs.sch.uk) and I will get back to you as soon as possible.

Mrs Mee 😊

### Coming up this term....

#### **English and Maths:**

In English this term we will be developing our reading skills, looking more at inference and really understanding what the text is trying to tell us, whilst in writing we will be working on extending and improving our sentences.

In Maths we will be looking at how we can use our addition, subtraction, multiplication and division skills to solve problems as well as learning about measures, capacity and time.

#### **NOTICES**

**PE** will be on a Wednesday. Please ensure that children come to school in their PE kit on a Wednesday. We may be outdoors at times so the children will need appropriate clothing please. All jewellery must be removed before coming to school on Wednesday.

**Homework** will continue to be set each Thursday on the website. I will text the link out to you each week.

**Reading Books** - need to be in school every day and will be changed as and when needed.

**Water bottles** - please make sure these are taken home each day, washed and re-filled ready for the next day.

#### **Wider Curriculum**

This term we will be learning about so many new things across our subjects. In Science we look at Animals and Humans thinking about how they survive, grow and stay healthy. This links with our PSHE all about being healthy and looking after ourselves. In Geography we will be learning about the weather, whilst in History we venture into space to discover about significant astronauts from the past and their achievements. Our RE work this term looks at stories from the Bible and good values. In Art we will be exploring sculptures using clay, whilst in Design and Technology we will be getting creative with some textiles and making something exciting. I am really looking forward to our Computing unit as we will be learning all about how to make Music - Mrs Mee's favourite thing! During our Music lessons will be developing our playing and note reading skills. We will continue to build our fitness through our LEAP sessions, which will be on a Tuesday afternoon and our athletics skills too. Such a wonderful term ahead full of hard work and fun!
